

ITALY SUPERCAR VALLEY TRIP – 25 – 28 APRIL 2018

TRIP OVERVIEW

ONCE IN A LIFETIME TRIP

As part of the Goodwood Road Racing Club's 20th Anniversary we are delighted to announce the Italy Supercar Valley Trip. This is an exclusive opportunity that provides a very limited number of Members incredible access to some of the most iconic and glamorous supercar factories in the World – Ferrari, Pagani and Lamborghini. In addition, Members will be treated to a rare behind the scenes visit to a significant private collection of historic Ferrari and Alfa Romeo cars at Collezione Righini, and a guided tour of the Ducati museum.

UNIQUE ACCESS

Thanks to fabulous support from Goodwood's friends in Italy, this unique experience will provide Members with extensive access to the Ferrari Factory and museum, which is ordinarily only open to Ferrari owners. In addition, Members will also enjoy a VIP tour of the Lamborghini Factory including the Museum and carbon fibre department, and also a VIP tour of the Pagani Factory where privately-owned cars from around the world are restored and fettled. A visit to Mario Righini's private collection will confirm his unrivalled reputation for salvaging and restoring historic sports and racing cars and motorbikes. Highlights include a very fine collection of Alfa Romeo's and the very first car built by Enzo Ferrari, the Auto Avio Costruzioni 815. To complete the trip, we will be visiting the Ducati museum on our final day, with a private guided tour of their extensive collection.

LUXURY ACCOMMODATION

As well as producing some of the finest cars and motorbikes of all time, the Emilia Romagna region of Italy is renowned for its wealth of fine food and wine. The region is home to many specialities including balsamic vinegar, pasta, cheese, salami and smoked ham, all of which will be sampled during our fabulous evening meals. We will stay throughout in Bologna at the 5* Grand Hotel Majestic just a few steps away from the heart of this historic city and close to a wealth of shops, bars and restaurants.
